

Tri-Cities Creation Science Club Newsletter

Hi everyone

First of all I just want to thank all of those who have been supporting the Tri-Cities Creation Science club and it's field trips and also those who have made some very generous donations. I also want to thank Temple Baptist Church for their support and allowing me to hold the Creation Science Club seminars in their facilities and for supporting some of the field trips.

Then I want to thank my dear wife who has supported me and encouraged me to not give up and keep pushing ahead even when it was difficult.

Our last field trip was to Glendive, Montana where we dug for dinosaur bones for two days with good success I might add, and visited the Glendive Creation Dinosaur Museum. We also went rock and fossil hunting and exploring for the remaining 5 days.

I believe we had a very successful creation science club for the 2010 and 2011 season. We had around 90+ in attendance for the month of November and I was shocked when over 60 showed up in the month of May. Usually we wind down to only about 20 some people in May.

I have started a field trip business called Science Adventure Tours. It is part of the Tri-Cities Creation Science Museum and the Tri-Cities Creation Science Club. Our first Field Trip tour will be October 22, 2011. This tour will be centered around the Missoula flood where we will go to the Ginkgo Petrified Museum then the Ginkgo Petrified Forest, the Frenchmen Coulee (time permitting), and the last stop will be Dry Falls.

Prices will be:

Family \$35.00

Individuals \$15.00

NEW MEMBERSHIP FORUM

We are going to start an actual creation club membership. Let me explain. If you become a Creation Science Club member you will receive:

- 1) A 15% discount on all videos and books and Tee-shirts at the creation science club book store.
- 2) A 20% discount on all Science Adventure field trips. For example the 22 October trip would be \$28 for a family and \$12 for an individual club member. *If we had to rent a vehicle the discount would not include vehicle rentals, gas, food and lodging.*
- 3) "First dibs" on all paid field trips (provided that you become a member well in advanced of any upcoming field trips). For a better explanation you should contact me.
- 4) A Creation Science Club card (used at time of purchase to get your discount)
- 5) A Tri-monthly Creation Science E-Newsletter

Club annual dues:

\$35.00 a family

\$15.00 an individual

In Years to come I will be planning (Lord willing) field trips to places like Yellowstone, Death Valley and maybe The Grand Canyon, etc. My plan for 2012 is to have other field trips relating to the Missoula flood and maybe have a field trip to Mt Saint Helens.

Tri-Cities Creation Science Museum has many new artifacts on display. You can see them September 27th at 7PM when we start off the new year for the Creation Science Club. Many people ask me who can attend the Creation Science Club: Answer: anyone and everyone is invited (do not have to be a club member to attend). Age is not an issue, just understand there is no child care.

Needs The Tri-Cities Creation Science Club needs a flammable storage cabinet. If anyone has one and would like to donate it we could sure use it. To get one of the size we need costs around \$450.00. We do take donations.
